Subject RE: Information Request re Safety Light Corporation Site 

Mr. Sanders,

The additional 10 days should not be a problem and your request is granted. I appreciate United's efforts.

Regards,
Harry Steinmetz

Subject RE: Information Request re Safety Light Corporation Site

Mr. Steinmetz,

United is still tracking down a couple of loose ends with respect to a few of its outlying facilities. The historical nature of the claims has made it more difficult to determine whether we have all the information we need to respond. The in-house counsel also is out for a few days, and I do not have the response in a shape where I can send it today. She would like to review the final response before it is sent. Can United have 10 more days to respond?

Doug Sanders

Subject: Information Request re Safety Light Corporation Site

Dear Mr. Steinmetz,

This email confirms EPA's agreement to an extension of United Airline's time to respond to EPA's July 24, 2007 information request regarding the Safety Light Corporation Site. EPA has agreed to extend the time period in which to respond to October 12, 2007. United appreciates the extension.

Very truly yours,

Douglas B. Sanders
